

Keap Mobile: Snooze

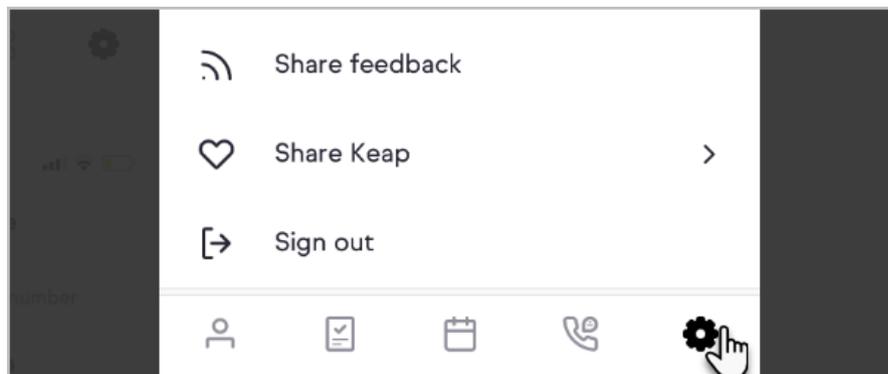

This article applies to:

[Install Keap Mobile](#) to your iOS or Android device

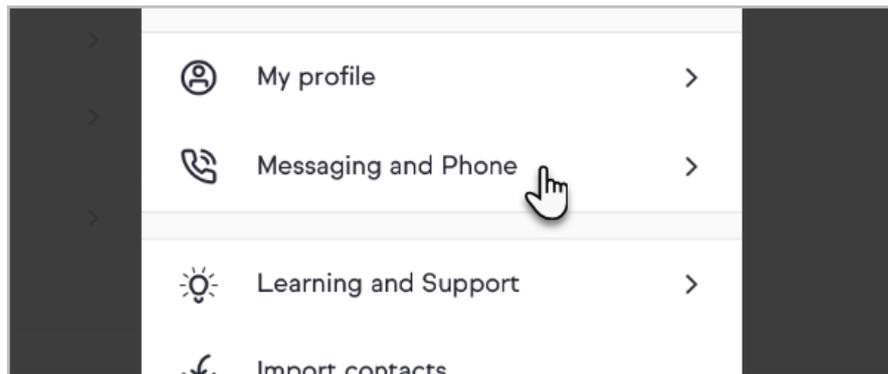

Keap Business Line's Snooze feature helps you stay focused on your task or meeting by pausing call and message notifications for a set amount of time or on a regular schedule. You can pair the Snooze feature with [Keap Business Line's auto-response feature](#) to immediately follow up with clients who contact you while Snooze is enabled.

Snooze calls and texts

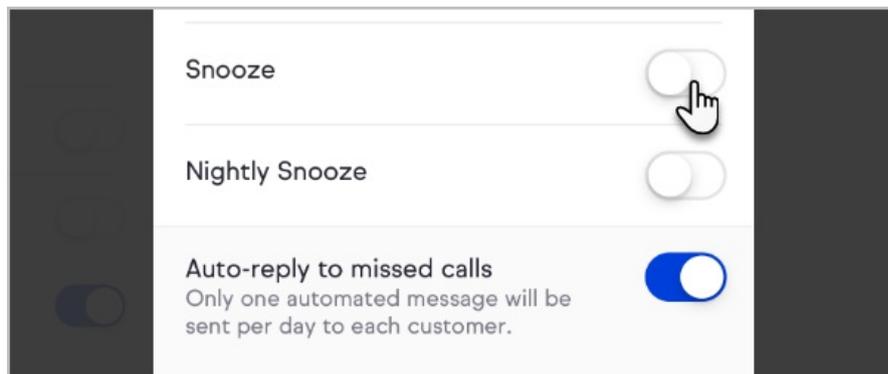

1. Open your Keap Mobile **Settings**

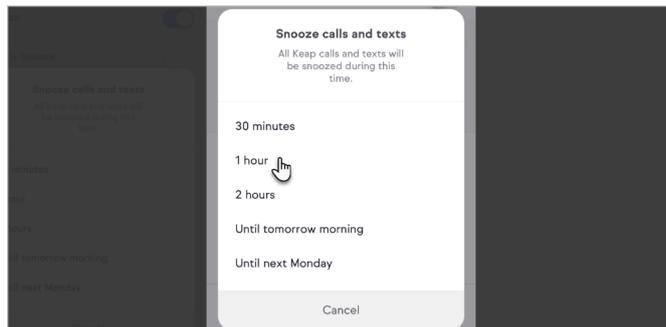

2. Tap **Messaging and Phone**

3. Tap the **Snooze** toggle

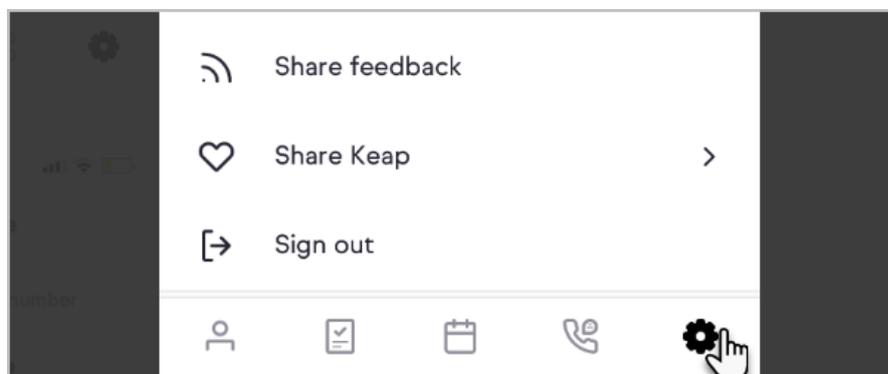

4. Select an option for how long your Keap calls and texts should be hidden

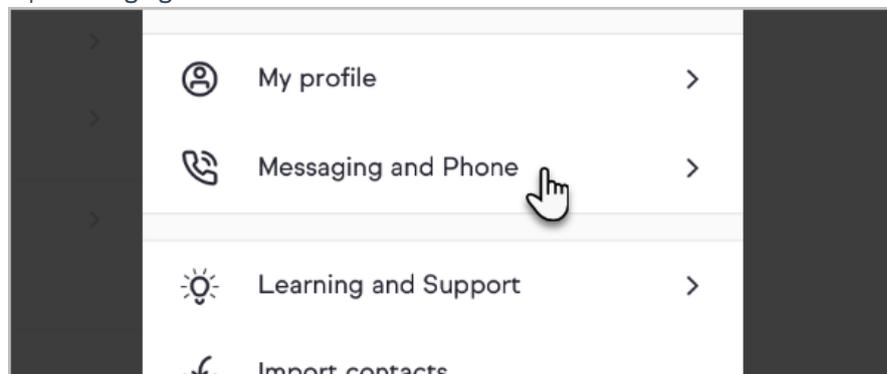

Setup Nightly Snooze for calls and texts

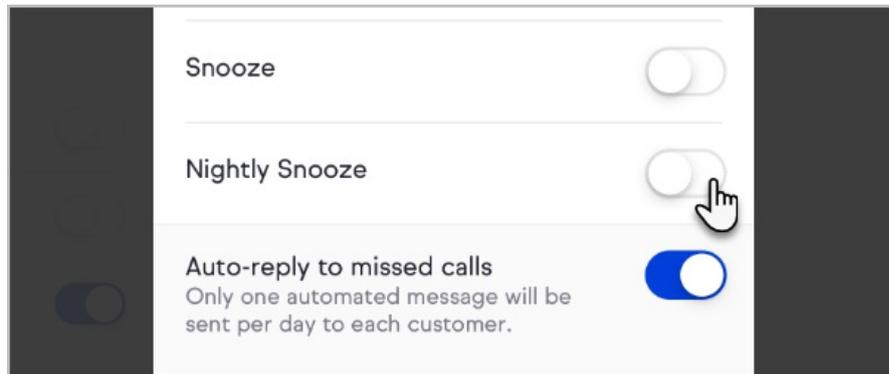

1. Open your Keap Mobile Settings

2. Tap Messaging and Phone

3. Tap the Nightly Snooze toggle

4. Select a start and end time during which your Keap calls and texts will be snoozed
