New feature: Introducing Google Reviews

More reviews means more incoming leads for your business. And now it's even easier to get them with Google Reviews. Increase your online findability, see who's reviewed you, and easily send tailored messages to request more reviews. [Learn more.](#)

Campaign Builder update: Improved decision diamonds

In addition to a clean new design update, you can now save time with enhanced decision diamonds. Instead of recreating the same rules over and over, you can duplicate a rule set, or import them from another rule set within a decision diamond. You can also delete existing rules in-line. [Learn more.](#) (Keap Pro only)

Reports got a visual enhancement

You may notice an updated look and feel to your reports. Besides a cleaner aesthetic, it's easier to see how your reports are sorted, and list totals are clearer.

Bug Fixes

- After creating a new contact from the Messages page, customers did not have a field to enter their message. ([Issue Number 1883590](#))
- When non-admin users attempted to import new contacts they received an "incorrect information" error. ([Issue Number 1909231](#))
