Appointments update: Zoom integration

By popular demand, Zoom integration is here! You can now create a unique Zoom link for each of your appointments with the added confidence that your appointments will be secure and private (no more early drop-ins). No more need to manually update your links with this integration. [Learn more.](#)

Contacts update: New sorting options

Your Contacts list now has an easily accessible sorting option so that you can sort your contacts to find exactly who you're looking for. You can sort contacts by first name, last name, email address, or date added by clicking the sort button at the top of your list. [Learn more.](#)
