Link shortening for marketing texts

Keap lets you send marketing text messages with up to 160 characters to groups of contacts using broadcasts and automations. Now you shorten long URL links to help you stay within that character limit. [Learn more](#).

Bug fixes

- Lead scores in Keap Max were not calculating flames based on the lead score settings
 - Attachments to Quotes or Invoices couldn't be added ([Known Issue: 2508348](#))
 - Whenever changes were made to a contact type in a contact's details, the previous contact type was saved instead of the new one
 - The contact's activity was not displaying phone numbers shorter than 10 digits ([Known Issue: 2521473](#))
 - When editing the settings for a connected integration, the window would open up the setup integration page instead of the field mapping page
-
