

January 27, 2022 | Keap®

This article applies to:

Filter contacts by phone type

You now have an additional filter to use to better understand who you can send marketing texts to. You'll be able to identify which contacts do or don't have a mobile phone number making sending marketing texts to the right number even easier. [Learn more.](#)

Keap opt-in form WordPress plugin

With numerous styling options, the opt-in forms can be customized to blend with your site allowing you to capture leads into your Keap account from a WordPress website quickly and easily. [Learn more.](#)

Bug fixes

- Checkout forms in Keap created duplicate contacts in some circumstances
 - HTML embedded webforms were setting invalid time zones
 - Broadcasts were unable to be scheduled on certain days of the month using the new builder
-
