March 17, 2022 | Keap ✎

This article applies to:

Group messaging on Keap web

As a Keap Business Line user, you can now view, manage, and create group messages from your desktop. You can create a group message with up to 9 additional contacts making a total of 10 including you in one thread. Learn more

Self-service subscription management

You can now unlock additional functionality by upgrading without needing to contact Keap. You can add or remove user licenses and contact capacity when needed. You will only need to contact Keap for edition downgrades or cancellations. Learn more

Bug fixes

- Embedding a landing page that redirected to a website caused the redirect to show a "failed to connect" page
