

April 21, 2022 | Keap®

This article applies to:

Create and send an invoice or quote from the pipeline

Pro and Max users can now create and send invoices or quotes directly from a deal card in the pipeline. [Learn more](#)

Bug fixes

- For some contacts or orders paid via Stripe 3D Secure, the payment would not show in Keap even though Stripe showed the payment as successful.
 - When using the new email builder within an advanced automation, adding the appointment block would display an error message in place of the button.
 - Sometimes when navigating to settings > tags, the list of tags would not load and an errorLoading banner appeared.
-
